

DAVID SACERDOTI

Born: [REDACTED] Italy

EDUCATION:

University of Padova, Italy Doctor of Medicine (Laurea)	1974-1980
University of Padova, Italy, School of Specialization in Internal Medicine, Specialist in Internal Medicine	1980-1985
University of Padova, Italy, School of Specialization in Cardiology, Specialist in Cardiology	1985-1990

CLINICAL AND RESEARCH POSITIONS:

Resident in Medicine University Hospital, Padova, Italy	1980-1981
Fellow in Internal Medicine, University Hospital, Padova, Italy	1981-1985
Fellow in Cardiology, University Hospital, Padova, Italy	1985-1990
Assistant Professor, Internal Medicine, University Hospital, Padova, Italy	1990-2005
Associate Professor, Internal Medicine, University of Padova, Italy	2005-2019
Associate Professor, Internal Medicine, University of Verona, Italy	2019-pres.
Director, Liver Unit, University Hospital, Verona, Italy	2019-pres
N.A.T.O. Fellow, Dept. of Pharmacology, New York Medical College, Valhalla, N.Y., U.S.A.	1985
Fogarty International Fellow, Dept. Of Pharmacology, New York Medical College, Valhalla, N.Y., U.S.A.	1985-1986
Adjunct Assistant Professor, Dept. Of Pharmacology, New York Medical College, Valhalla, N.Y., U.S.A.	1988-pres

ACADEMIC POSITIONS:

Adjunct Professor, School of Specialization in Nephrology, University of Padova, Italy	1987-2003
Adjunct Professor, School of Specialization in Internal Medicine University of Padova	1991-2005
Adjunct Assistant Professor, Department of Pharmacology, New York Medical College, USA	1988-pres
Associate Professor, Internal Medicine, University of Padova, Italy	2005-2019
Director, School of Specialization in Gerontology, University of Padova, Italy	2013-2018
Associate Professor, Internal Medicine, University of Verona, Italy	2019-pres.

AWARDS:

Italian Society of Internal Medicine Award	1985
N.A.T.O. Fellowship	1985
Fogarty Fellowship	1985-1986

SUMMARY OF RESEARCH INTERESTS

Portal hypertension. Hemodynamic alterations of cirrhosis and pharmacodynamics.
Doppler-sonography of the liver and the splanchnic circulation.
Diabetes. Hypertension.
The heme-oxygenase/carbon monoxide system in hypertension and liver pathophysiology.
Cytochrome P450-dependent arachidonic acid metabolites in hypertension and liver pathophysiology.
Non-alcoholic fatty liver disease and NASH.

GRANTS:

Italian Ministry of Research (MIUR), Regione Veneto, Italy, National Heart, Lung, and Blood

Institute of USA (NHLBI), US, National Council for Research of Italy (CNR).

PUBLICATIONS:

146 papers published in Journals cited by PubMed (Science, Journal of Clinical Investigation, Lancet, Gastroenterology, Hepatology, American Journal of Physiology, Journal of Hepatology, Diabetes, American Heart Journal, Archives of Internal Medicine, Hypertension etc), with an impact factor of >750. H index: 38.

EDITORIAL DUTIES

Guest Editor of "Prostaglandins and Other Lipid Mediators" 2003: "Eicosanoid-dependent mechanisms in liver disease".

Guest Editor of "International J Hypertension" 2012: "The emerging role of Heme-oxygenase and its metabolites in the regulation of cardiovascular function".

Guest editor of "Prostaglandins and Other Lipid Mediators" 2012: "Eicosanoids in Cardiovascular Disease".

Guest Editor of "Prostaglandins and Other Lipid Mediators" 2015: "Eicosanoids and related Compounds".

Editorial Board:

Associate Editor, Frontiers in Gastrointestinal and Hepatic Pharmacology,

Associate Editor, Frontiers in Inflammation Pharmacology,

Editorial Board: J. Ultrasound

David Sacerdoti, MD

Verona, 12 marzo 2021.
